

# DGMF21BH

21.5" Display w/ 4 pocket brochure holder

Android 

HOLDS  
BROCHURES

## KEY FEATURES

### Comes in Black

Available range of colours

### 450 nits

Brightness (cd/m<sup>2</sup>)

### 1080 x 1920 (FHD)

Resolution

### Android 11

OS

### 16.7M

Display Colours

### Wi-Fi, APP, USB, Ethernet, Cloud

Content control method

### 24V / AC110 or 220V , 50/60Hz

Power Supply

### 42W

Power Consumption:

# Technical Specifications

## DGMF21BH

|                       |                          |                       |                                                     |
|-----------------------|--------------------------|-----------------------|-----------------------------------------------------|
| LCD Size              | 21.5"                    | Operating System      | Android 11                                          |
| Light Source          | Backlight (LED)          | Processor             | RK3566, Quad-core CPU                               |
| Resolution            | 1920x1080(FHD)           | RAM                   | 2GB                                                 |
| Brightness            | 450nits                  | ROM                   | 32GB                                                |
| Contrast              | 4000:1                   | Decoding Resolution   | 1080P UHD compatible                                |
| Response              | 8ms                      | Touch Support         | No(can add capacitive touch)                        |
| Pixel Pitch           | 0.19025×0.57075 mm       | Supported Video Files | H.265,H.264,VP8, MAV , WMV ,<br>AVS , H.263 , MPEG4 |
| Refresh Rate          | 50/60Hz                  | Supported Image Files | JPG、BMP、PNG                                         |
| Viewing Angle         | 178/178                  | Supported Audio Files | MP3, WMA, WAV, APE, FLAC,<br>AAC, OGG, M4A, 3GPP    |
| Color Saturation      | 72%                      | RTC (Real-time clock) | Yes                                                 |
| Viewable Area         | 476.64 (H)*268.11 (v)    | Speakers              | 2x 5W                                               |
| Chromaticness         | 16.7M                    | Schedule Power On/Off | Yes                                                 |
| Voltage               | 24V/AC110 or220V,50/60HZ | System Update         | USB Compatible                                      |
| Power Consumption     | 42WH                     | App Installation      | Support Download and Installation                   |
| Operating Temperature | 0-40                     | Bluetooth             | 5.0                                                 |
| Storage Temperature   | -10°C~60°C               | Wi-Fi Generation      | Wi-Fi 6 (Compatible with Wi-Fi 5)                   |
| Operating Humidity    | 20% to 85%               | Wi-Fi Frequency       | 2.4 G, 5G Dual Band                                 |
| Storage Humidity      | 10% to 90%               | Ethernet (RJ45)       | 1                                                   |
| Max. Operating time   | 18 hours per day         | HDMI IN               | N/A                                                 |
| Net Weight            | 40KG                     | VGA                   | N/A                                                 |
| Gross Weight          | 45KG                     | Earphone              | N/A                                                 |
| Unit Dimensions       | 350*400*1697mm           | USB                   | 1xUSB 3.0 HOST , 1xUSB 3.0 OTG                      |
| Packing Dimension     | 1700*200*450mm           | Wi-Fi                 | 1                                                   |
| Shell Material        | Steel, Aluminum          | Audio                 | Left and right audio channel                        |
