DISPLAYSHOPS

IMPORTANT:
Before saving, please turn off or delete the Template layers.
SLW will not be held responsible for guides left in your artwork.
When saving, please save as High Quality Print PDF

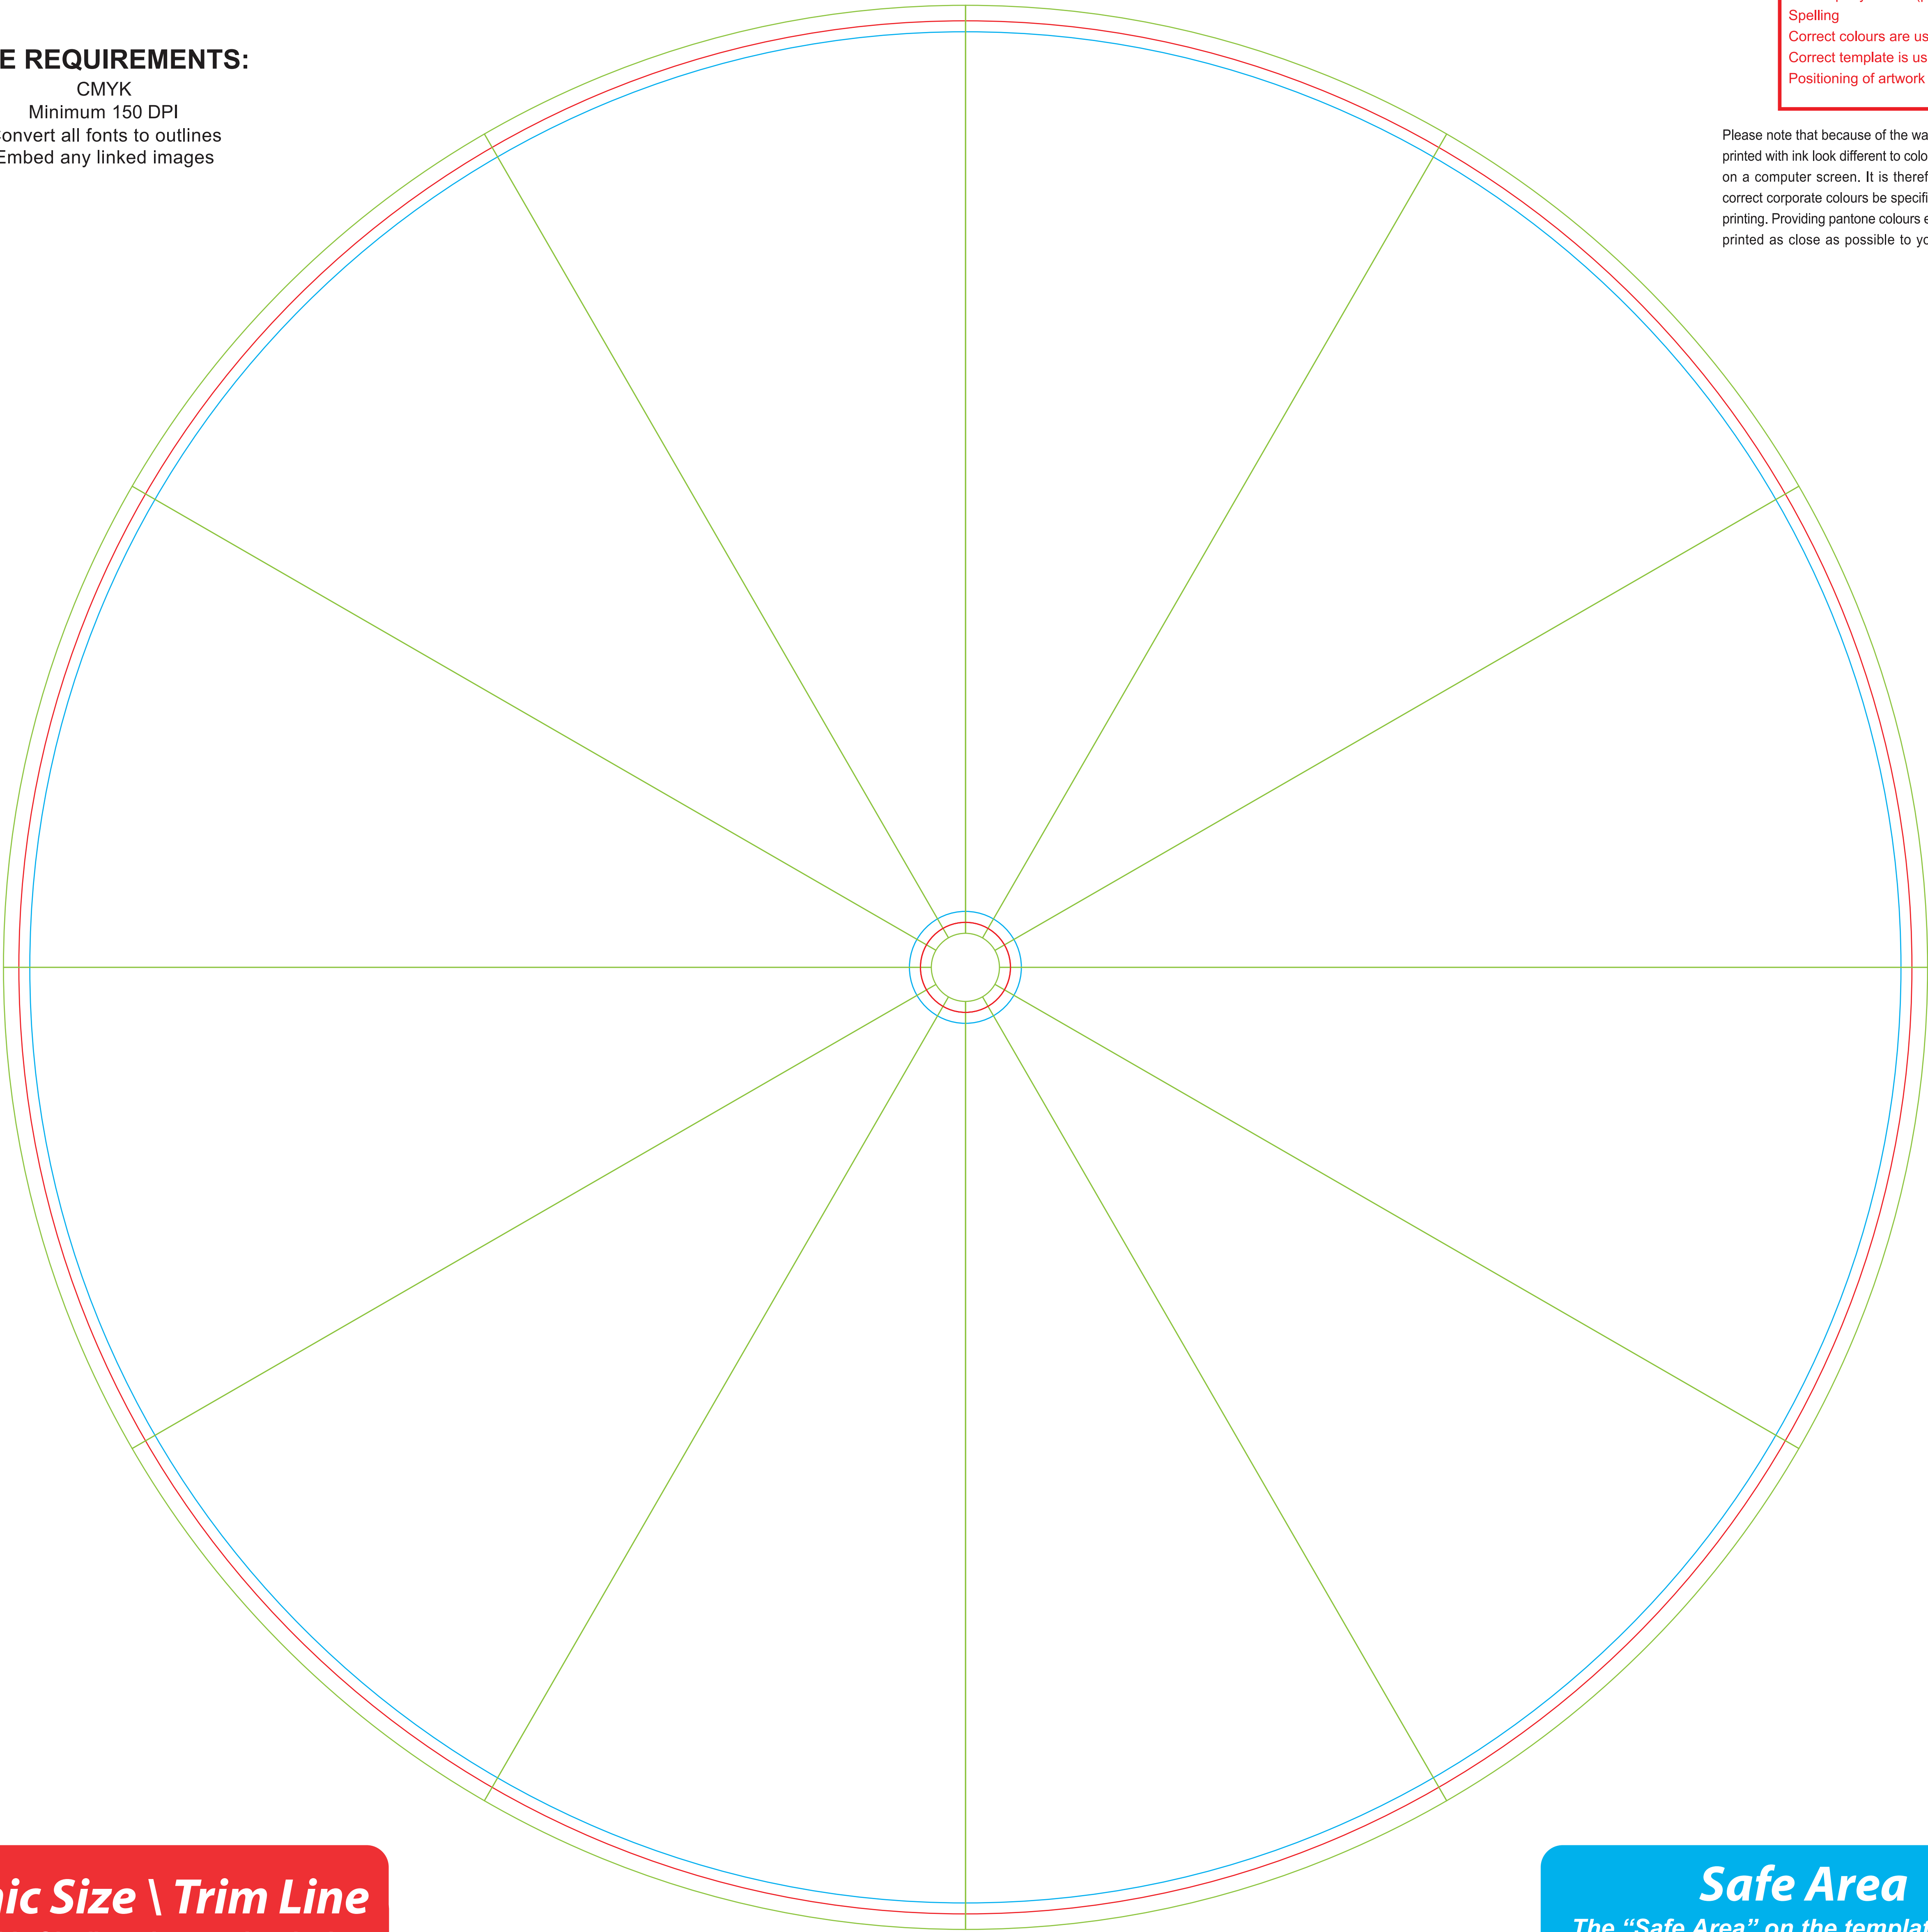

Please check the following:

- All company details (phone/fax)
- Spelling
- Correct colours are used
- Correct template is used
- Positioning of artwork

Please note that because of the way we see light, colours printed with ink look different to colours displayed on a computer screen. It is therefore essential that the correct corporate colours be specified by the client before printing. Providing pantone colours ensures the colours are printed as close as possible to your corporate colours.

FILE REQUIREMENTS:

- CMYK
- Minimum 150 DPI
- Convert all fonts to outlines
- Embed any linked images

Graphic Size \ Trim Line
The “Graphic Size” on the template is the total area of the graphic that is printed and where the graphic will be trimmed to.
Total Diameter: 610mm

Safe Area
The “Safe Area” on the template is the front viewable area that will be clearly visible after the graphic is erected.
Keep all text and important images within this area.
